Professional Summary

3+ year experience as a Front-End dev. I am interested in Angular and I'm looking for a job that will help me improve my skills.
Responsible, diligent, reliable, able to listen, friendly, able to learn quickly and team player.
Also I like studying English and my goal to speak fluently in English.

Work Experience

ARTBANK, Angular developer	05.2019 - now
I have been working in this company for 3 years. In the begining I started using AngularJs. My first project was a constructor forms based on a project "formio". Now i am using Angular 11 and Angular Native at my work. I am developing three mobile applications using Angular Native (iOS / Android) (a marketplace, a marketplace warehouse and an online wallet)	
SPR.ru Front-end developer	10.2017 - 05.2019
During this period, I was working there a front-end AngularJs developer. I did HTML/CSS, AngualrJs part of project. Also i was developing a cabinet of customer.	
alextyschenko.com Front-end developer	10.2017 - 05.2019
It is a web-studio where i was a front-end developer. My responsibilities included: HTML/CSS, Angular developping, SEO optimization web sites. I did a server side rendering for SEO optimizations. I did a part of API developing as well. We used Yii2 php framework for our API.	
We were doing a project about an online CV constructor. I did a front-end part for whole project.
